## THE DEADLY FRIGHT.

TEROR EVERYWHERE—STEADY PROGRESS OF THE FEVER.

New Cases and Deaths Reported.—The Power of Plunder and Pillage Threatened.

MEMPHIS, Tenn., July 24.—Fourteen new cases of yellow fever were reported to the Board of Health this morning. Among the number are Charles A. Stacy and Alex. Keeper. Two car loads of tents, furnished by the Government, have arrived and the city authorities will, to-morrow, establish a camp at a point seven miles north of the city on the Paducah Railroad. The Howard Association yesterday placed a few nurses on duty. This morning, the street in front of their rooms, was crowded by colored people, all anxious to be assigned to duty. They were informed that no more nurses were required, whereupon they dispersed.

### FOUR MORE DEATHS FROM FEVER.

MEMPHIS, July 24.—Four deaths from fever have occurred since last night. Mrs. B. E. Hallender, John Lockard, Mrs. B. T. Miller and Henrietta Taylor.

### THE FEVER BREAKS OUT IN TENNESSEE.

CHATTANOOGA, July 14.—Special dispatches from the South report three cases of yellow fever at Fort Payne, Alabama, and at Spring Hill, Tennessee, to which point many Memphis people fled. Among them is Lieutenant Robert Dowd, U. S. A. Numerous rough looking plantation hands continue to arrive in the city in search of work, and advice from plantations twenty miles away report that negroes are openly saying that they will go to Memphis to plunder and enrich themselves. From the present outlook it is doubtful if there will be any better time enough in the city to protect the property against pillagers. The total number of fever cases reported is only ninety, but a few mild cases were not brought to the notice of the authorities. Indications are that the fever will be of a less violent type than that of previous years. In several families where all have been sick no one has died.

### YELLOU FEVER NOTES.

The yellow fever is gradually tightening its clutch on Memphis. New cases are reported from day to day and before the end of the week we shall probably get the official announcement that the disease is epidemic.

While the crack white military companies of the city are run away to Tennessee, two colored companies have offered their services to the authorities as guards in case they are needed. Thus far no case of the fever is reported from New Orleans; but it, or something very like it, has made a lodgment in a dozen other southern cities are in the same terrible suspense, hoping for the best but dreading the worst.

Unless the Brooklyn health officers are mistaken, a man died there yesterday in the tenement house of yellow fever. The township City of Merida left Vera Cruz on July 24, for this port, touching at Havana.

### A Friend Tortured.

CHICAGO, Ill., July 24.—A special to the Tribune, from Quincy, Ill., says a band of determined men entered the jail there Frank Hobbes, colored, condemned on the charge of criminally assaulting a woman, being Mrs. Ferguson, at Redding, Pike county, shot him dead, and dragged his body, riddled with bullets, through the streets. His victim had identified him.

### Saratoga Races.

SARATOGA, July 24.—The first race, a mile dash, Egypt won; Wallenstein, second; Bonito Wood, third. All lapsing, Time, 1:24.

### The Darien Canal.

BORDEAUX, July 24.—At a crowded meeting here to-day M. De Lescop said that American support had been secured for the Darien canal project. Nine of the principal financial establishments in Paris, he said, had promised aid.

### Finanial.

LONDON, 4:30 p. m., July 24.—United States bonds, new lives, 5%; Illinois central, 30%; amount of business gone into bank, or loaned to it, \$14,000.

PARIS, July 24.—The statement of the Bank of France shows an increase of specie for the week of eleven million, four hundred and seventy five thousand and francs.

### The News from South Africa.

LONDON, July 24.—Special dispatches from South Africa show that Sir Garnet Wolseley ordered Lord Chelmsford to fall back on Kambawza so as to unite with General Creelock's column.

Sir Garnet Wolseley is Port Durnford, in the neighborhood of Creelock's command.

With the Zulus have found everything to do.

The Zulus have been removed to a new kraal built by King Cetewayo when the war broke out fifteen miles north of Umlandi, and approached only through a long and narrow defile, with his chief command with him.

King Cetewayo has some of his chief command with him.

Correspondents at the seat of war, though agreeing that the victory over the Zulus was decisive, express some doubt as to whether King Cetewayo will immediately come to terms.

### Latest Telegraphic Summary.

Leeds Brothers, cotton spinners of Manchester, England have had promising news.

New York Republican Convention meets at Saratoga, September 3d.

A fire broke out in Salisbury, Md., yesterday, destroying valuable property.

Galveston is enforcing a rigid quarantine. No person is allowed to enter the State from infected districts.

### THE OHIO CAMPAIGN.

WASHINGTON, July 23.—General Ewing, the Democratic candidate for Governor of Ohio, arrived here last evening, on route for home, from Atlantic City, where he had been vacationing with his family for the last ten days and preparing for the opening speech of his campaign. He leaves this evening for home, in Lancaster, Ohio, where he will deliver his speech to-morrow. In an interview to-day he denied the his visit to Tilden, when New York two weeks ago, was for the purpose of seeking the alliance of the individual and the pursuing of funds for his campaign. In his case he proposes to keep the contest for the Presidential nomination in the background, and it will be a poor man's campaign, as he has no money and expects none.

In regard to the report that he proposes modifying his will-known advanced views in favor of a paper currency, he said he will neither hedge nor trim, but will stand squarely to ground.

### Iredell County Farming.

Captain J. A. Harris, of Mooresville, Iredell county, writes as follows: "S. A. Lowrance from 35 acres reaped 944 bushels, measured, of wheat, weighing 1,033 pounds, or 86 pounds per bushel. J. M. Harrison from 40 acres reaped 968 bushels. S. C. Ranke on 25 or 30 acres made 476 bushels.

### In All Probability.

The Grant men in Louisiana are getting uneasy at the way Sherman is manipulating the Southern appointments in New Orleans. It is unnecessary to say that their uneasiness in this particular direction will have a large room to grow.

## THE SHERMAN BOOM.

PRESIDENT HAYES AND THE SUCCESSION.

A Southern Republican Party—John Sherman an Original Advocate of the Southern Policy.

WASHINGTON, July 22, 1879.—It was only the other day that the *Herald* man in his peregrinations came across a startling revelation of political intrigue, unfolded in the glib talk of a couple of hardworking government officials who, with feet perched on desks and a couple of palm leafs in hand, were doing their best to overcome the demoralizing influences of an excited thermometer. The secret of "the Sherman boom" was disclosed without the least attempt at reticence or concealment.

"You see," said the elder of the speakers, "John Sherman is king pin of the Cabinet. This administration is run in his interest."

"Then you don't believe Hayes wants a second term?" said the younger man, who enjoyed the military designation of "Captain."

"Not at all," returned the other. "Hayes has a strange infatuation about Sherman. They make each other Sherman made Hayes President and Hayes makes Sherman the man of the hour of distinction in the Treasury."

"That must have been a good while ago. People seem to forget that John Sherman was a contemporaneous advocate, not the original author, of the Presidential election policy. You didn't know that John Sherman used to be a

He thought at first that he was wiping off some color that had accidentally got upon his face, and then that it was due to the indigo in his shirt, but no matter how he may change the blue perspiration continues to stain his handkerchief.

A. Kohl's barber shop, on which he hangs in the shop, and Mr. Kohl says that when first used it showed but a faint color, but soon became a bright-cerulean blue. This will be an interesting case for the physicians to investigate and ascertain what Mr. Kohl means us that there is no self or burning about it, but the blue drops can be seen on the young man's face all the time.

### THE CAMPAIGN OPENS.

EWING SOUNDS THE "KEY NOTE" AT LANCASTER.

Sherman Does the Same in Maine—Issues Joined and Accepted—The Money Power Rule.

LANCASTER, O., July 24.—To-night Gen. Ewing made the greatest speech of his life to an immense and enthusiastic crowd. He said in conclusion: The Republicans seek to destroy the independence of the masses by immensely increasing the burdens of debts and taxes and by cutting off the opportunities and rewards of labor, and by the same act swell the wealth and power of the favored classes; and then, by allying the money power of government, the military power, to control and practically subvert the free rule of the ballot. Look at the powers which may be brought to bear to effect this result! See the vast growth of corporations, some of which already rule with iron hand over the great States; see the banks at least two thousand national banks, holding almost every business man and business interest in their grasp; see the veteran corps of one hundred thousand active partisans paid from the treasury; and tell me whether, if the policy is pursued, it will not be a great plant to be as

A protracted meeting will commence at Stokesburg, in Stokes County, on Sunday next, the pastor, Rev. W. H. Dorr, will preside over it. An anti-slavery meeting will be held on the same day at the Tabernacle, in the Tabernacle meeting room, occupied by Mr. Sherman. He mounted the platform he was warmly received, but when Mr. Blaine came up soon after the applause became enthusiastic. Fred. N. Dorr, of the city committee, introduced as chairman Mr. John W. May, who made a brief address. He felicitously introduced Mr. Sherman, who replied with a storm of applause.

The Secretary said that in accepting Mr. Blaine's invitation to speak in Maine during his vacation he simply wished to do his duty, and to have methods of resumption and the reasons for maintaining it. He did not, being a public officer, propose to discuss political themes, but would have liked to speak of the revival by the Democratic party of the Southern doctrine of States' rights, and of the efforts of the South to maintain it.

He entreated the protracted respect. In spite of his talents and of his brother, he publicly proclaimed that he would treat infidels with fairness and respect; that he would endeavor to convince them by argument and not by abomination.

He insisted that he had no personal bias, and that he was not a partisan, but a Christian, it is not necessary to be a Christian, he knew that no one can be maligned in kindness; that epithets cannot convince; that names are not powerful, but the finger of scorn never violates.

With the generosity of an honest man, he accorded to all the fullest liberty of thought, knowing, as he did, that in the realm of mind a chain is but a curse.

### THE OTHER SIDE.

If the Cincinnati *Commercial* will bring its horoscope to bear once more on North Carolina politics and take in the other side, it will vindicate its claims to independent journalism and afford its readers some amusement at the same time.

Will the *Commercial* accept a little feeble help from the *News*?

Simply a classification and some suggestions which may materially aid the *Commercial's* enterprise.

(1.) The Greensboro Ring, with Keogh at its head, representing the carpet-bag (no disrepect) and Grant element of the party. Keogh is chairman of what is left of the Grant party in North Carolina. He is Register in Bankruptcy. He holds the purse strings of the party. He is an avowed Great man for a third term, with Blaine as a second choice. He supports and controls a newspaper, accredited as the organ of the Republican party. He is cheek by jowl with Raun, commissioner of Internal Revenue at Washington, and until recently enjoyed the fullest confidence of the administration and dictated and controlled its patronage. His Grant-Blaine proclivities have alarmed the unscrupulous John Sherman, and a consequent waning of his influence in that quarter is remarked. He wants Grant because Grant will restore the Grant-Keogh regime. In a second choice he is prompted by a feeling of hate to the South unworthy any man who has been treated with the consideration that Mr. Keogh has received at the hands of our people. This upon the assumption that the *North State* represents his political views, Keogh's complications with Raun and Collector Wheeler of the 5th district will give the keen-scented *Commercial* no little trouble, but the field is prolific of Sunday editorials for a Cincinnati constituency. The *Commercial* will find invaluable help in the rhetorical young Everett, who represents the who-does-is-a-dastard-who-doubts-is-damned native Republicans in those parts. Everett has Wheeler and Keogh by the throat, and his vice-like grip will yield to nothing less than a Congressional committee. Everett represents the more respectable, and of course fossilized, element of his party. Such men of fair repute as Lewis Haines, Daniel Goodloe and other prominent native Republicans in the State, Postmaster Holden is supposed to sympathize with him. The Republican members of the late inglorious Legislature indorsed him. He has energy, and gam and devil enough in him to lead the small but respectable host of "outs" to victory. But an inistate thirst for the spoils has betrayed his weakness. Alas! how unfortunate! The demand for Collector Wheeler's removal was promptly supplemented by application for office. The *guise de facto* President saw the size of the "cat in the meal tub." It was an evil hour for the ambition of the rising young politician, and one, possibly, portentous with serious consequences to the success of the Haines-Goodloe combination.

Such ill-timed zeal in his own behalf may unfit him for leadership and if so his followers should not hesitate to act promptly in reducing him to subordination. The success of the combination against so formidable an adversary as the "Greensboro Ring" can only be attained by the shrewdest sort of management and wire-pulling. Everett may do as a teaser, but it will take the experienced politician of the Tim Lee-Harris order to stock the cards on Keogh *et al omnes* genus.

(2.) In the Sixth Collection District, living unostentatiously and comparatively retired, in a suburban mountain town, the *Commercial* will find a Republican who is to figure prominently in state and national politics.

Dr. Mott is collector of the Sixth District. He has been collector for years. The district embraces the whole of Western North Carolina. Politically it is absolutely in his power. He is monarch of all that vast territory. None dare dispute his mastery. The few who were bold enough to attempt it and so far succeeded as to cause his temporary removal, have long since subsided into a masterly inactivity. He is a sagacious and courageous leader. He is bold and aggressive. Assualts upon the Republican party he resents as personal affronts. He loathes and hates the name of Democracy. He supported Blaine at Cincinnati in 1876, because he shared Blaine's hatred for the Democratic party. Blaine has not improved since that time in neither manner nor feelings toward the Democracy. Mott is tenacious in adhering to opinions. The *Commercial* is curious to know how North Carolina will vote in the National Republican Convention it cannot do better than to address its inquiries to Dr. J. J. Mott, Statesville, N. C. Any calculations the *Commercial* may make without counting Mott as an important factor in both state and national politics will not be worth the paper they are printed on.

### THE FIFTH DISTRICT.

This little piece of information will impart interest to the Congressional canvas in the Fifth District. A friend of Colonel Steele's, fresh from the scene of future contentions, informs us that the summary disposition of Colonel Steele by the Charlotte *Observer* does not correctly represent that gentleman's position. Colonel Steele did not "pledge himself not to be a candidate for the position." All that he did was to declare his purpose not to be a candidate for the nomination, and to that he inflexibly adheres. He is not a candidate for the nomination. It is his desire and purpose that the convention shall act, uninfluenced by his candidacy. Somebody has been heard to say recently, and the *News* assumes the responsibility of repeating it with its most emphatic indorsement, that "candidates for the nomination"

has been the curse of our State and local politics. A convention composed of delegates selected by and in the interest of a candidate is not a convention of the people. The election of Tom, Dick and Harry, all good fellows, in their respective townships as delegates to the county convention by and in the interest of a particular candidate, is a fraud on the people. More than all other causes combined, this tampering with conventions has conduced to the disorganization of the Democratic party.

When five years more had aged us lov-  
ers both;  
She wanted rank and station, and, as  
suming airs  
Of Clara Vere de Vere, to wed was loath.

I woosed my love with titles, orders,  
wounds, and fame,  
When half a century had o'er us rolled;  
But now she called bright honor but an  
empty name.  
As, devotee, her beads she hourly told.

And now I woos my love with memory's  
regret;  
For I have touched the Psalmist's ut-  
most score;  
And her no thoughts of earth nor of  
the herefret,  
For she is dead these twenty years and  
more.

of the nineteenth century, and one that  
takes equal rank with the invention of the  
telephone, the electric light and other scientific  
marvels of the age, is that of

Henry's Carbolic Salve.

This compound possesses the most re-  
markable healing properties of any known  
agent employed for the purpose of curing  
SORES, WOUNDS, CUTS, BRUISES,  
Inflamed and abraded surfaces, and for  
ALL SKIN DISEASES.

Its cleansing properties remove all im-  
purity that is hidden in the pores of healthy  
flesh, and the work of curing goes  
to completion with most wonderful  
rapidity.

Let no family be without a box  
of Henry's Carbolic Salve.

and the thousands who have used it  
unite in recommending it. Beware of  
Counterfeits.

# DAILY NEWS

FRIDAY, JULY 25, 1879.

## Weather Report.

WASHINGTON, July 24.

For the South Atlantic States, easterly to southerly winds, partly cloudy weather, and areas of rain, a slight rise in temperature, and no decided change in temperature.

**Thermometrical Table.**  
The thermometer, at L. Branson's book-store, ranged as follows yesterday:

9 A. M. ....	86
12 ....	86
3 P. M. ....	86
6 ....	86

**Index to New Advertisements.**

W. R. ABROT.—Bellevue High School.

J. C. BREWSTER.—Local notice.

## LOCAL BRIEFS.

—Nothing in the Mayor's court yesterday morning.

—Special meeting of the Board of Aldermen this evening.

—Turkey soup from Jolly's restaurant made its appearance in the News office yesterday afternoon, and was suddenly put out of sight.

—Fruits, etc., remain unchanged in price. Such stuff as is brought in is of poor quality, the heat and drought affecting all kinds.

—The best barbecue comes off on Tuesday evening. Mayor Manly will preside, and give the youngsters a few words of advice.

—The ladies, of Hickman Lodge No. 1, I. O. G. T., held a dine party at the lodge rooms over the "Citizens" National Bank last evening. The singing was quite enjoyable.

—The thermometrical report shows 86° to be the maximum degree yesterday. This is the highest the thermometer elevated it about 100. It was one of the most sultry days we have had, and the rain rather increased it.

—Mr. James R. Baker, of Suffolk, Va., has been sojourning in this city for the past few days, leaves, after making a host of friends here, for home this morning.

—The largest job of the season will be the removal of the powder magazine of Julius Lewis Company, from one portion of the rock quarry to another site to be selected in the quarry grounds. The magnitude of the job has preyed seriously upon the mind of Mr. N. W. West, but he thinks it can be accomplished by a combination of the pulley and the lever, a wheelbarrow, and crowbar, and thereby the safety of the structure as well as the city will be assured.

**Died.**  
In this city on the 23d instant, at 10:30 p. m., after a short illness, Emma S. wife of John T. Womble. The funeral services will take place this Friday morning, the 25th instant, at 9 o'clock at the Salisbury Street Baptist Church. Friends and acquaintances are respectfully invited to attend.

**Notice.**  
The members of Hesperian Social Club are requested to meet to-night at the old Standard building at 8 o'clock sharp.

W. H. SUMNER, President.

**I. O. O. F.**

McKey Encampment meets this (Friday) evening at 8 o'clock.

Every Patriarch is expected to be in his place, as amendments to the by-laws, among other important business, to be transacted, will be considered. Special business to be disposed of.

By order of Chief Patriarch.

B. H. WOODELL, P. C. P., Scribe.

**Supreme Court.**

Court met at 10 o'clock yesterday. Present, Mr. Justice Smith and Justices Asio and Dillard.

By consent, the case State vs. Frank Bell, from Pitt County, was called and argued by Attorney General Kenan for the State, and Gillian & Gathing for the defendant.

Court adjourned until 10 o'clock this (Friday) morning, when the Court will hear, by consent, certain appeals from the ninth judicial district.

**The School Bill.**

The School Bill has been displaced on the docket, and will not be argued today as previously announced in the News. No time has been fixed by the court for a hearing. The News is withholding some communications on the subject, awaiting the action of the court.

The people are manifesting some impatience at the delay.

**Important to All.**

Every North Carolina school should have a class in "Moore's History of North Carolina." The book embraces a period of nearly three hundred years, and is interesting, instructive, and contains a large store of valuable information. The publishers are receiving orders almost daily, many schools have already introduced the book and it has won many high commendations from some of the most prominent educators in the State. Alfred Williams & Company, Publishers, Raleigh, N. C.

**A Brilliant Meteor.**

Yesterday morning after the news had gone to press a brilliant meteor was seen in the heavens. It flashed into sight near Canfield, in the zenith, was at that time in the zenith over Raleigh. The duration of its visibility was about three seconds. The direction of its path was due north, and its brilliancy was far surpassing, though in size, one of the so-called "bright" meteors of ordinary brilliancy. It travelled through about 35 degrees of arc, leaving a violet, first and then roseate trail behind, lasting fully ten seconds, and disappeared just below Polaris. Though attentively listening no report was audible. The whole heavens and earth were bright with glory.

"I know not whence comes the Promethean heat, but so quickly this opaque world relieves it!"

**Distinguished Arrival.**

The genuine, fun-loving Major Stark (by the way he hates to be called major, and that is the reason the title sticks to him), manager of the office of the Western Union Telegraph Company in this city, has recently come to the city, and is brim-full of telegrams.

So when the News reporter made his advent in the Major's "sunction" yesterday morning, one of those wide-reaching, far-sounding polyglotical arrangements was dissected for his inspection and education. The telegrams were all preceiv'd, having from their intrinsic value found their way into almost every household in the land.—Graphic.
